#### Intern

RedGrape Pvt Lmt, New Delhi  
Worked as an intern in RedGrape Pvt Lmt.  
Developed projects on LDAP and SONIX API technologies.

### Profile

I started my journey as a web developer in 2016. During summer vacation I have learned HTML5 and CSS3 at "SUN MICROSYSTEMS". During Winter vacation I started developing small websites like my-portfolio, GuessTheNumber- Game, and UI designs.

My biggest step in coding was on my mid-term vacation. In that instance, I learned Python, Ruby, JS, JQuery, Rails, and MySql. Using these technologies I have built dynamic web-application like RESULT- TO-CSV, LINEUPNOW

Check my portfolio: <https://shaik1729.github.io/my-portfolio/>

Telugu ●●●●●

## Hobbies

■ Cracking coding problems

■ listening music

## Qualities

■ Ability to learn, adapt, and grow

■ Time management

■ End user focus

## Personal projects

Dec 2021 - Present

### ON-SERVICE

It is an application that helps to find the mechanics nearby.

It is a complex application with two roles of users and uses google maps API for functionality.

Briefly, it contains all the mechanic's details from all over the place, and if any breakdown or any other issue with a vehicle then the user can find the detailed information of the mechanic nearby such that they can contact and solve the problem in unknown locations.

It is still under development.

Sep 2021 - Nov 2021

### R-TO-CSV

It is an application designed for fetching of results. R-TO-CSV (result-to-CSV) is a ROR application designed to reduce the complexity of making a result analysis.

It provides all the candidate's results in the form of a CSV file by fetching it from the JNTUA results website. It's live on Heroku. you can check over here. <https://resultocsv.herokuapp.com/>

May 2020 - Mar 2020

### Guess The Number

It's a simple guessing game.

It's a very simple static application designed to have fun by guessing the number from 1 to 100 which is generated randomly by the application.

Wanna give it a try ?:
